SHEET 1 — CUT PLAN (7 boards)

Each board drawn to scale, viewed face-on. Red dashed = cut line. Hatched = scrap. Measure from the edge marked ◄REF.

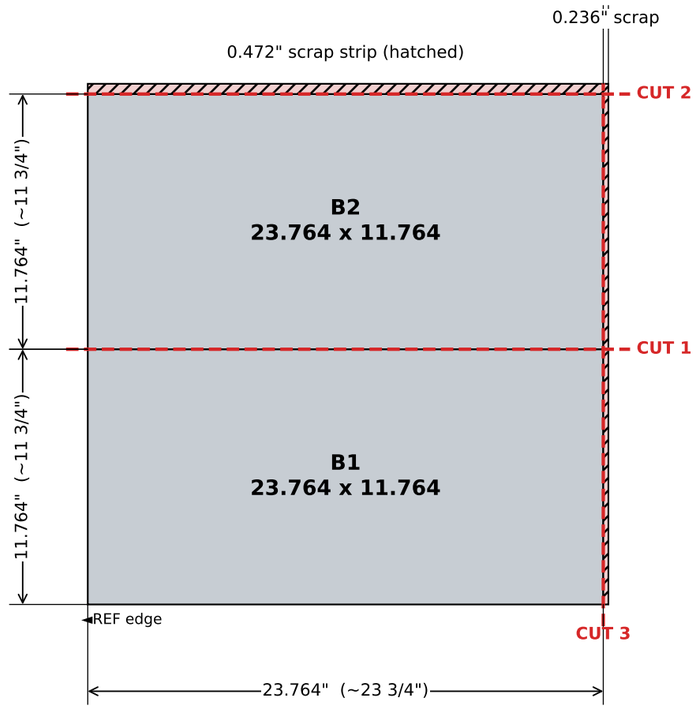

BOARDS 1–4 (qty 4)
no cuts — top sheets T1, T2, T3, T4

BOARDS 5 & 6 (qty 2)
rip into 2 strips each — side walls L1, L2, R1, R2

BOARD 7 (qty 1)
rip into 2 strips, trim each to length — back wall B1, B2

Piece	Qty	Size (W x H)	From board	Location
T1, T2, T3, T4	4	24.000 x 24.000	1, 2, 3, 4	Top, 2 x 2 grid
L1, L2	2	24.000 x 11.764	5	Left wall: L1 rear, L2 front
R1, R2	2	24.000 x 11.764	6	Right wall: R1 rear, R2 front
B1, B2	2	23.764 x 11.764	7	Back wall: B1 left, B2 right (between side walls)

Notes

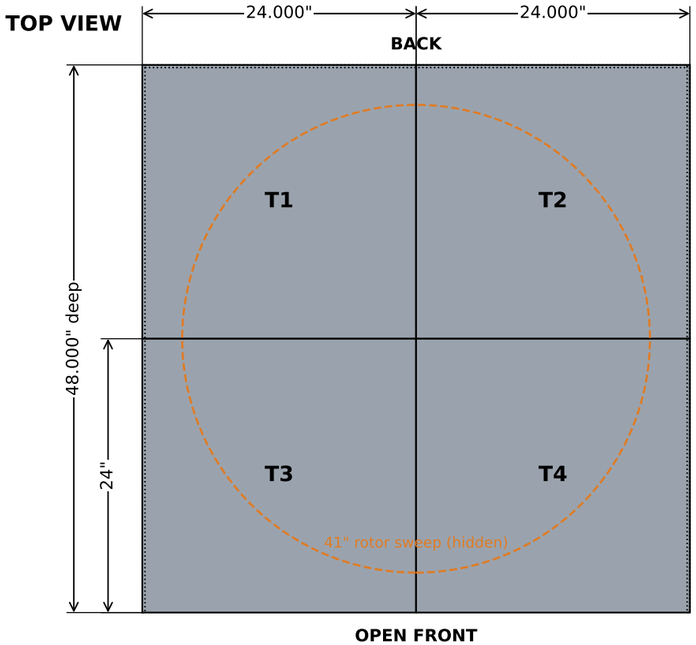

- Wall height 11.764" = 12" overall minus one 0.236" top sheet (top sheets rest on the walls).
- Back strips are 0.236" shorter so they fit between the side walls: 2 x 23.764 = 48 - 2 x 0.236.
- Fractions are nearest 1/16"; 11 3/4" and 23 3/4" are within 0.015" — fine for foam.
- Cut with a long straightedge and a fresh utility/foam knife; AN-72 has no meaningful kerf.
- Total: 7 boards, 10 pieces. Buy 8 for a spare.

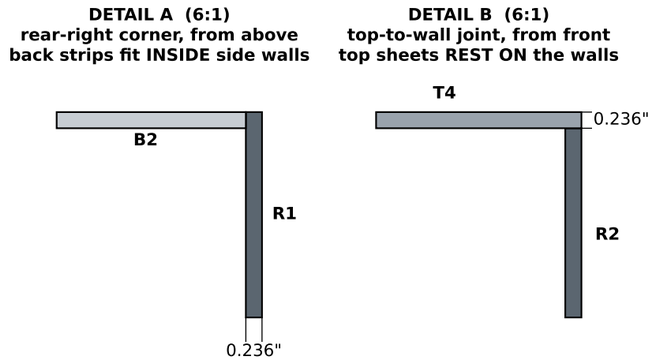

Foam enclosure — cut plan

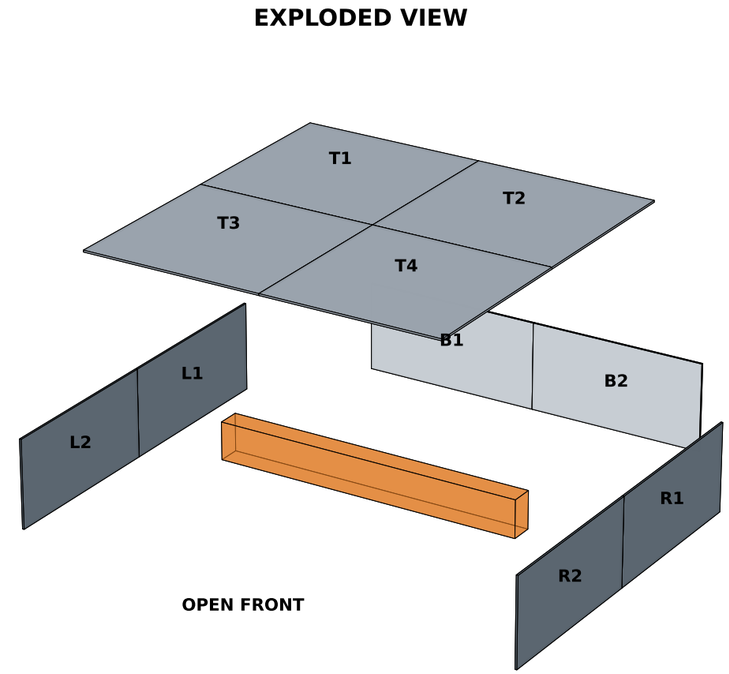

AN-72 RF foam enclosure — Panthalassa clinic	Units: inches Date: 2026-10-15
Stock: Laird ECCOSORB AN-72, 24 x 24 x 0.236" (6 mm)	Sheet 1 of 2 Scale: as noted

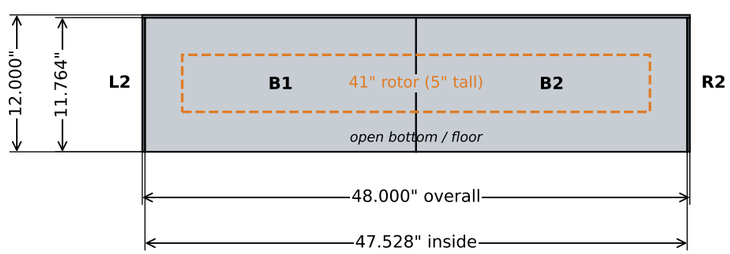

SHEET 2 — ASSEMBLY (third-angle projection)

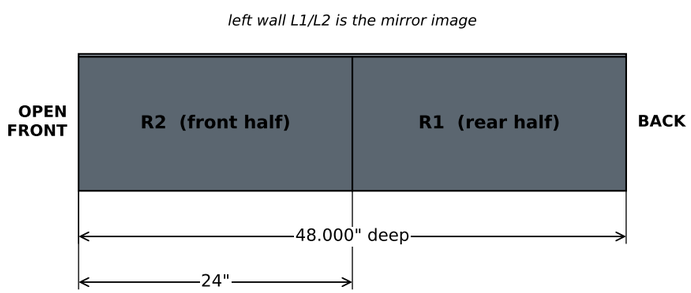

Front (+Z) and bottom are OPEN. Top, back, left, right are foam. Outer envelope 48 W x 48 D x 12 H.

ASSEMBLY ORDER

1. Stand the side walls: L2 + L1 butt end-to-end on the left (L2 at the front), R2 + R1 on the right. Outside faces 48.000" apart.
2. Fit the back wall B1 + B2 BETWEEN the side walls at the rear (Detail A). B1 on the left, B2 on the right; their seam sits on the centreline.
3. Lay the top: T1 rear-left, T2 rear-right, T3 front-left, T4 front-right, resting on the wall tops, flush with the outside faces (Detail B).
4. Leave the front and the bottom open.
5. Tape every butt seam from the outside so it can't open up.

Check: rotor sweep (41") has ~3.3" clearance to each side wall, and 11.764" of headroom over the 5" rotor.
